GIVE YOUR STOMACH A NICE VACATION

Don't Do It by Starving It Either—
Let a Substitute Do the Work.

The old adage, "All work and no play makes Jack a dull boy," applies just as well to the stomach, one of the most important organs of the human system, as it does to the man himself.

If your stomach is worn out and rebels against being further taxed beyond its limit, the only sensible thing you can do is to give it a rest. Employ a substitute for a short time and see if it will not more than repay you in results.

Stuart's Dyspepsia Tablets are a willing and most efficient substitute. They themselves digest every bit of food in the stomach in just the same way that the stomach itself would, were it well. They contain all the essential elements that the gastric juice and other digestive fluids of the stomach contain and actually act just the same and do just the same work as the natural fluids would do, were the stomach well and sound. Thus, there are no harmful effects on the stomach, just as one workman relieves another, and permit it to rest and recuperate and regain its normal health and strength.

This "vacation" idea was suggested by the letter of a prominent lawyer in Chicago. Read what he says: "I was engaged in the most momentous undertaking of my life in bringing about the coalition of certain great interests that meant much to me as well as to my clients. It was not the work of days, but of months, I was working night and day almost, when at a very critical time my stomach went clear back on me. The undue mental strain brought it about and hurried up what would have happened later on."

"What I ate I had to literally force down and that was a source of misery as I had a sour stomach much of the time. My head ached, I was sluggish and began to lose my ambition to carry out my undertaking. It looked pretty gloomy for me and I confided my plight to one of my clients. He had been cured by Stuart's Dyspepsia Tablets and at once went down to a drug store and brought a box up to the office."

"I had not taken a quarter of that box before I found that they would do all the work my stomach ever did; and as a rest on vacation was all I needed, I gave up the question for me, I determined to give my stomach a vacation. I kept right on taking the tablets and braced up and went ahead with my work with renewed vigor, ate just as much as I ever did and carried out that undertaking to a successful issue. I feel that I have Stuart's Dyspepsia Tablets to thank for saving me the handsome fee I ever received as well as my reputation, and last but not least my stomach."

Stuart's Dyspepsia Tablets are for sale by all druggists at 50 cents a box.

the city for a visit of several days with relatives and friends. Mr. Riley has been here for some time superintending the construction of his new building on Main street.

An old time New Mexico dust and sand storm struck the city last evening, causing all the merchants to close the doors of their stores. This is usually the forerunner of a rain and the people here and all over the valley are hoping that the signs do not go wrong this time. Rain is needed very badly and a downpour of one or two days' duration would do thousands of dollars' worth of good.

IS DETERMINED TO ESCAPE FROM JAIL

Now the Sheriff Has Special Guard to Watch Garner.

Roswell, N. M., Nov. 4.—Charley Garner, in the Chaves county jail on a charge of horse stealing, opened a hole in the jail wall, made by former prisoners, and was about to escape. The damage was repaired, but Garner again began work at the same place, and in order to secure him, he was shackled. In a short time it was discovered that he had got the shackles off and the sheriff is now having him closely watched.

The receipts in the city treasurer's office for October show a total of \$4304.66. The disbursements were \$3072.68, a net saving during the month of \$1231.98.

A pumping test made on a farm near Roswell, using crude oil in a new engine, resulted in lifting 50 percent more water than engines of the same power have lifted using gasoline. Experts state that the test indicates that the new engine using 30 gravity crude oil as fuel, will develop from 25 to 30 percent more power per gallon than gasoline engines. The fuel oil can be laid down, it is said, at Pecos valley common points at 3 1/2 cents per gallon.

EACH CANDIDATE WORKS TO ELECT OPPONENT

Muncie, Ind., Nov. 4.—"Any party that did not have any more sense than to nominate me for the position of justice, ought to see elected a man like Joseph Zebner, even though he is a Democrat."

That is the kind of a stump speech Isaiah Dudgeon, Republican candidate for justice of the peace in Delaware township, this county, has been making. He has been working hard for the election of his opponent, Joseph Zebner, and Mr. Zebner has been working just as hard to try to elect the Republican candidate.

The campaign has become so warm that both have been indulging in personalities—each decriing his own ability and lauding his opponent's.

The campaign is no joke with the two candidates, although it affords humor for the entire county, as the office pays little and would interfere with the business interests of the candidates.
